

WAR'S LESSONS FOR U. S., BRYAN'S TOPIC IN NEW STATEMENT

Former Premier Says He Will Define His Policy in Three Announcements.

SILENT ON PLANS FOR 1916

To Discuss Origin of War, Influences Which Caused It, and His "Remedy."

Former Secretary of State Bryan, fresh from a sojourn at Old Point Comfort, Va., returned home today and announced a three-part statement to be issued, beginning tomorrow, in which he will discuss "The Causeless War and its Lessons for Us."

It was Mr. Bryan's plan to issue the complete statement today, but owing to its length and declared importance, he will issue it in daily installments covering three days. The first installment, to be made public tomorrow, will deal with the war and the injury it does to neutral nations.

This, however, is believed to be but a preface to the two later announcements, in which the former Premier will give his views on the origin of the war and the influences which caused it, as well as the final discussion of the Bryan "remedy," or the means which may be employed for restoring permanent peace.

To Explain His Policy.

In these three statements, the former premier is expected to amplify previous statements concerning "force and persuasion," the two contradictory types of diplomacy and national usage, the unbridled exercise of the policy of "force" being the cause, according to the former Secretary, of his resignation from the cabinet. The Bryan policy of "persuasion," in which international disputes must first be subjected to investigation, probably will form a large part of the three communications.

Immediately after the announcement of the three "messages," the Secretary gave his first intimation that hereafter he will remain in the East, at least during the winter.

We expect to live in Miami in the winter, hereafter," said Mr. Bryan. Mr. Bryan was strongly urged to issue a statement of some sort, explaining his attitude on the question of whether he would lead a "peace, prohibition, and suffrage" campaign for the Presidency in 1916.

Silent On Plans For 1916.

"No, no," objected the former Secretary, "not at this time. I wish to deal first with this question of war, which is now before us, and the causes and results which led to my resignation."

He intimated, however, that a statement outlining his plans for 1916 probably would be issued later.

Mr. Bryan's statement concerning reports from London that the Government was being urged to make cotton absolute contraband. A letter from Mr. Bryan to Senator Stanford in which Mr. Bryan referred to a similar attitude on the part of the United States during the civil war, has been freely quoted in England.

That is another subject I cannot discuss or comment on," he said. "It pertains to my work in the State Department, and I do not think it a proper matter for discussion. I cannot answer any questions along that line."

Continuing, Mr. Bryan spoke of his plans: "Mrs. Bryan and myself," he said, "plan a visit to our country place at Miami, Fla., possibly the Government of this week. We have not been there for more than two years, with the exception of a week, and we desire more rest. Further than that, I don't care to discuss my plans for the future."

MOTOR AMBULANCE CRASHES INTO TREE

Crashing into a tree at Sixteenth and M streets northwest, while responding to a summons from 1748 M street, the Emergency Hospital motor ambulance in which Dr. A. C. Neblett, of the hospital staff, and Charles E. Lewis, chauffeur, were riding, was badly damaged early today.

Mrs. May Sanger, thirty-one years old, a victim of chloroform of mercury poisoning to whom the ambulance was making the run when the accident occurred, was removed to the hospital a short time later in the horse-drawn ambulance of the hospital. Mrs. Sanger told the police she took the poison by mistake.

Police of the Third precinct are looking for the chauffeur of a motor truck, who is alleged to be responsible for the accident to the ambulance. Lewis attempted to avoid a collision with the motor truck, which is said to have refused to give the ambulance the right of way, caused the crash into the tree, the hospital authorities say.

Suffrage State Bodies Organized By Union

Work of forming organizations in various States for the purpose of keeping closely in touch with members of Congress during the summer is being rapidly carried out by the Congressional Union for Woman Suffrage, according to Miss Alice Paul, chairman of the executive committee, who has just returned from Richmond. She was accompanied by Miss Mabel Vernon and Mrs. Edna S. Latimer, members of the union who were with Miss Paul in Richmond, went to Norfolk to form a branch of the State organization there.

WANT CIVIC WORKER AS COMMISSIONER

Resolutions Unanimously Adopted By Piney Branch Citizens' Association.

The appointment of a man active in citizens' association work to the next vacancy on the District Commission was urged in resolutions unanimously adopted by the Piney Branch Citizens' Association at a meeting last night.

The chairman of the entertainment committee was authorized to appoint subcommittees to make arrangements for the Fourth of July celebration in the subdivision.

A report of the public health committee asking the Commissioners to remove unsightly tree boxes, to discontinue dry sweeping of streets before oiling them, and to remove a deep pool of water at Fourteenth and Kennedy streets and Colorado avenue, was adopted.

Inasmuch as this was the last meeting until autumn, the committee on fire and police was urged to give immediate consideration to a resolution before it relating to firemen's and policemen's pensions, so that the executive committee may notify the District Commissioners of the association's attitude on these subjects before the close of the current fiscal year.

CONGRESS HEIGHTS OBJECTS TO REFUSE

The Public Improvement Association of Congress Heights will make a vigorous attempt to obtain an extension of the refuse collection service.

A letter was read at a meeting last night from the Engineer Commissioner stating the suburbs was not sufficiently built up to warrant this service, but the citizens feel that in the interest of the health and sanitation that such a service should be provided.

The change in the mail service will be a benefit according to a letter from Postmaster Frazer. The substitution and one carrier has been removed, but it is believed that an efficient service can be maintained with the present system. In place of making the last collection at 5:45 p. m., as under the former schedule, it is now made at 9 o'clock each night, and immediately sent to station H, insuring delivery in any part of the city in the following morning.

Edward Blaine reported that the laying of granite sidewalk would be undertaken during this summer.

Charles F. Purdy stated the school board is planning to place a call bell at the public school. He also said his committee is soliciting subscriptions to assist in defraying the expenses of the graduating exercises of the eighth grade.

The railroad committee reported that the railroad company within the next few days would commence its work of extending the tracks along Nixons avenue from Alabama avenue westward. J. W. Lyon, first vice president, presided. The association adjourned until the second Monday in September.

To Open Bids For New High School on June 30

Bids for the completion of the new high school for colored pupils, in First street northwest, between N and O, will be opened at the District building June 30 at 2 p. m. The contract for the foundation has been awarded to P. F. Gormley.

Congress appropriated \$550,000 for the building. The contract provides that the building shall be completed within fourteen months.

TODAY'S BEAUTY SUGGESTIONS

Face powder simply covers up an unattractive complexion and leaves no lasting benefits. Those who have tried a simple spumax face lotion find it much better, as it removes skin discolorations, such as freckles and tan, and makes the skin smooth, white and velvety. This lotion is made by dissolving four ounces of spumax in one-half pint of water, then adding two teaspoonfuls glycerin. This complexion beautifier does not rub off or show like powder, and gives a more refined appearance. It removes both shininess and sallowness, rapidly giving the skin a permanent healthy, youthful appearance.

An especially fine shampoo for this weather can be had at trifling expense by dissolving a teaspoonful of canthox in a cup of hot water. Pour slowly on scalp and massage briskly. This creates a soothing, cooling lather that dissolves and removes all dandruff, excess oil and dirt. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes on a glossy richness of natural color, also a fluffiness which makes it seem very much heavier than it is. After a canthox shampoo arranging the hair is a pleasure.—Advt.

Frank R. Selleck Back From Trip to the Coast

Frank R. Selleck has just returned from a trip to the West. He, with his party, left Washington on May 15, visiting Colorado and some of the chief points of interest en route, also visited the Canadian Rockies.

There were several Washingtonians in Mr. Selleck's party who all report a very enjoyable trip. The expedition in Mr. Selleck's estimation is one that can be expected. The thing that impresses visitors most is the lighting effect, the illumination being beyond description. As manager of Delta tours, Mr. Selleck has arranged a series of tours to the

Mrs. Bertha N. Robbins Heads D. A. R. Chapter

Mrs. Bertha N. Robbins is the new regent of Judge Lind Chapter, D. A. R. She was chosen at the annual meeting of the chapter yesterday afternoon in the New Ebbitt. Other officers elected include: Mrs. Mabel L. Seidemann, vice regent; Mrs. Mary U. Emery, recording secretary; Miss Helen M. Drake, corresponding secretary; Miss Sarah P. Grogan, treasurer; Miss Kathryn W. Noel, registrar, and Mrs. Tricilia Lebaron Slaughter, historian.

Motorist Catches Eagle That Tried to Get Dog

SAN ANTONIO, June 15.—A real American eagle swooped down out of a clear sky into the front yard of Jack W. Haynes and endeavored to carry off Haynes' dog. After circling around over the front of the house and trying two times to clutch the dog the eagle flapped its way to the back yard. Haynes, who was just climbing into his motor car when the eagle first made its appearance, followed it around the house and grabbed hold of one of its legs. The eagle grabbed back, but is now a prisoner in a chicken coop in the back yard.

No Stomach, He Eats.

BALTIMORE, June 15.—Meyer Caplan, a merchant of Newberry, N. C., is at a hospital here learning, under the direction of a trained nurse, to eat, virtually without a stomach. He came to Baltimore two weeks ago to be treated for tumor of the stomach, and the surgeons removed all but about two inches of this organ. This small flap, attached to the esophagus, was joined to the duodenum, a part of the small intestine. The man is now able to take food that is easily digested. This he must take standing, a spoonful at a time, so that each meal takes about two hours. The surgeons think he has many years ahead of him.

Cal-o-cide For all Foot Troubles
Instant Relief For Aching, Burning and Sweaty Feet! Corns, Callouses, Bunions, use two spoonfuls of Cal-o-cide in foot bath. Package 25c at any drug store.
